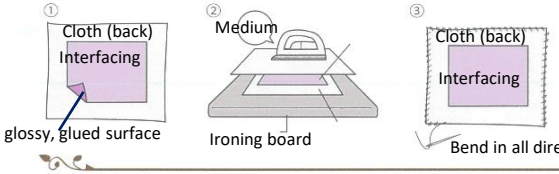
How to use Cloth and Interfacing

1: Prepare before starting embroidery and How to use Interfacing.

①Align the interfacing(glossy, glued surface) with the center of the back of the colth and stack it.

②Apply a patch and iron (Medium temerature, Dry) it together. Hold the iron for 3 to 5 seconds. The interfacing will settle when it cools. Do not flip the cloth before it gets cool.

③It's a good idea to start by threading around the edges of the cloth.



Start and End Stitch

〈How to entangle with the thread on the back of the cloth〉

At the beginning of the stitch, at the end of thread, scoop3 to 4 stitches on the back side and entangle the thread.
