# Kanda

# Water-Erasable Extra-Fine-Point Blue Pen

## "CHACOPA"

Top Grade
Made in Japan

**Wholesale price: $3.70**

### Features:

■ Water erasable
- Easy to erase marks with water.

■ Extra fine point
- Minimum 0.5mm
- Smooth writing touch.

(*) Line width (0.5mm - 0.7mm) varies with material of paper/fabric and writing pressure.

### Usage:

■ Pattern transfers, Embroidery & Quilting designs.
■ Excellent for projects which need fine marking.

### Note:

■ Do not iron over marks or launder before completely removing with plain water. Unless marks are completely removed, they may become fixed by heat or a chemical reaction with a laundry product.
■ Always test a blue pen on the fabric you are using to make sure that marks will completely disappear. Some fabric finishes, fiber contents or dyes may not be suitable for use with this pen.
■ Marks sometimes fade away on their own in a couple of days depending on humidity.
■ Replace the cap tightly and keep the blue pen away from heat and moisture.
■ Do not press hard to avoid damaging the fine point tip.
■ Remove marks as soon as possible. Marks left on more than two weeks may be difficult to remove.
