

How to use the liner

[Part-name]	Body	Inner stopper	Core with sponge holder	Liner lid
How to open	<p>① When removing the lid and holder turn clockwise</p> <p>② Remove the inner stopper. The inner stopper has 2 parts, top and bottom, overlapping each other.</p> <p>Remove both at the same time.</p>			
	<p>① Push in the inner stopper. Push the inner stopper into the container and attach it.</p> <p>② Tighten the holder and attach the lid. Turn the holder counterclockwise to attach it and close it until clicks.</p>			

How to dye solution with 3 different concentrations with liner

Measure the concentration of 20% using the red star mark ★ on the liner.

(Amount to dye approximately 1 skein)

① Add dye liquid

② Add water up to the 20ml mark

③ Add dye liquid to this line for 1 skein

(Amount to dye approximately 2 skeins)

① Add dye liquid to 2 stars ★★

② Add water up to the 40ml mark

③ If there are 2 skeins of thread, add the dye liquid up to this point. (2 stars)

■ A concentration of 50% is a 1:1 ratio of water to dye liquid.

■ 100% concentration is only dye liquid.

Notes

- *If you wish to re-use the liner, please wash and dry it thoroughly to prevent color transfer.
- *We recommend wearing clothes that can get dirty and rubber gloves while working.
