Starter kit

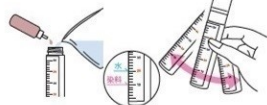

[How to Use]

So-Me-marche is a brand that dyed thread using a special pen containing liquid dye.

This kit make and dyed a dye with concentration of 50%

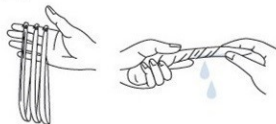

1 Preparing the dye

Shake the dye package well.
Add 10ml each of dye liquid and water to the liner and then shake to mix.

Tip: When shaking the liner, close the cap and shake it from side to side with pen tip facing up.

2 Preparing the thread

Each bag contains 3 skeins of thread. Wet one skein to be dyed with water, soak it well, and then squeeze it thoroughly.

Tip: Find a thread tie loop to prevent thread tangling.

3 Consider where to dye

Layout the wrap and spread the thread on it. If you dye with intervals, the mixed colors will look beautiful.

Tip: Spread the wrap widely to prevent the dye liquid from spilling.

4 Color the thread with liner

Press the tip of the liner into the thread several times. When the dye comes out, tap it lightly to dye it.

Tip: Be careful not to push too hard as too much dye liquid will come out.

5 Impregnate with dye

Wrap the entire thread in wrap and leave it for 20 minutes.

Tip: Avoid letting air in when wrapping. Oil paper can be used instead of vinyl wrap.

6 Wash the thread

Rince with water and detergent.

Tip: Wash the thread by holding it by the thread tie loop.

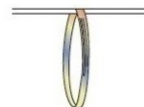

7 Soak in color fixing liquid

Water 120ml : Color fixing liquid 3ml in a cup. Mix well and then soak the thread and leave it 60 minutes.

Tip: A color will appear in the water, but leave it alone.

8 Dry in the shade

Wash the thread with water and dry it in the shade to complete.

Tip: Shape it and dry it.

[Notice]

*This liquid is not a drink.

*If the liquid gets into your mouth, immediately spit it out and rinse with water. And then consult your doctor.

*We recommend wearing clothes that can get dirty and rubber or vinyl gloves when working.
